Quality teaching has become an issue of importance because the concept of higher education has changed a lot now a days. The expectation of the students have changed and the teachers are to equip themselves with higher methods to qualify to teach a very informed and technically well versed students. Students expectations have been expanded and diversified. They call for new teaching methods.

So in order to cater to the needs of the students, it was decided in the staff meeting that-

2. Registration of Unorganised Construction Workers:

Udupi is a developing city that occupies a top place in the state in education, health, and business. On the other hand, the slum area in the city is also

expanding day by day. There are more than 1000 migrant workers' families from north Karnataka who are staying in thatched huts in the slum colony close to the National Highway 66 at Nittur. According to the residents, there are nearly 300 families there. These migrants have been living with their relatives since 30 years, but not a single family has a ration card or an ID card, but now a days they have adhar cards.

Our students surveyed the families and registered their names to the Labour office this time. After the registration, the labourer and his/her family become eligible to take facilities offered by the Government.

According to this scheme, two daughters of a labourer are given financial aid for their marriages. If any of the registered worker dies in an accident, his /her family gets Rs 4 lakh compensation. If he/she dies a natural death, the family gets Rs 2 lakh compensation. Similarly, if a labourer becomes handicapped during work, he/she is given compensation of Rs 2,000 per one per cent of disability. During registration, the labourer should have certificate issued by the contractor stating that he or she has worked for at least 90 days.
